

Lockout bag

ART00750

DIMENSIONS

FEATURES

- **Designed to protect large plugs and machinery controls against accidental use or start-up.**
- Made from nylon.
- Dimensions: 440mm long x 245mm wide (without the adjustable fastener).
- Resistant to temperatures of between -4°C and 121°C.
- The bag can be sealed with up to four 7 mm maximum shackle diameter padlocks.
- The bag can be used with PVC cables for the upper opening, making it suitable for locking cable-controlled systems.
